CAUÃ DA SILVA RODOLPHO

Junior Front-End Developer

Barueri, SP - Brazil • +55 (16) 99624-7033 • cauarodolpho@gmail.com
Portfolio • GitHub • LinkedIn

PROFESSIONAL PROFILE

Junior Front-End Developer focused on building modern, responsive, and accessible interfaces, currently expanding into Full Stack development. I build projects with React, TypeScript, Tailwind CSS, and Node.js, applying component-based architecture, REST API development and consumption, authentication, clean code practices, and Git/GitHub version control. I am seeking my first opportunity to contribute to real products and grow alongside a technology team.

TECHNOLOGIES AND KNOWLEDGE

Front-End	HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, and Styled Components.
Back-End	Node.js, Express, Prisma ORM, MongoDB, Zod, JWT, and bcrypt.
Tools	Git, GitHub, VS Code, NPM/PNPM, Figma, Vercel, GSAP, Framer Motion, and Spline 3D.
Concepts	Mobile-First responsive design, component-based development, REST APIs, authentication, clean code, and web accessibility.

FEATURED PROJECTS

AuthFlow - Authentication and User Management

React • TypeScript • Node.js • Express • Prisma ORM • MongoDB

Educational project started during DevClub Front-End and Back-End classes and independently expanded with a new design, TypeScript, JWT authentication, bcrypt, Zod validation, protected routes, demo access, a CRUD dashboard, and MongoDB integration. Front-end and API deployed on Vercel.

Live demo • Repository • Demo access available

Nexus Cloud

React • TypeScript • Tailwind CSS • Component architecture

Cloud services platform featuring modular front-end architecture, reusable components, state management, and responsive layouts for marketing pages and dashboards.

Live demo • Repository

Chronos

React • TypeScript • Tailwind CSS • AI APIs

Productivity and time-management application integrated with AI services, featuring authentication, APIs, typed asynchronous workflows, and real-time visual feedback.

Live demo • Repository

COURSES AND CERTIFICATIONS

Santander 2026 - AI React Front-End
React and Artificial Intelligence • 2026

React Developer Program - DIO
React, component-based development, and UI engineering

JavaScript Developer Program - DIO
Fundamentals, DOM, asynchronous JavaScript, and APIs

Dev of the Future Immersion - Dev em Dobro
May 2026 • practical project

Web Architecture with AI Immersion - Alura
July 2026

DevArt: High-Value Projects - Stranger Things
Practical project • February 2026

Design Thinking - FIAP
In progress • user-centered solutions

Fullstack TypeScript Developer Program - DIO
In progress • TypeScript and application architecture

CORE SKILLS

- Organization and consistent study habits
- Problem-solving and continuous learning
- Responsive development and attention to detail
- Communication, commitment, and collaboration
