CAUÃ DA SILVA RODOLPHO

Junior Front-End Developer

Barueri, SP - Brazil • +55 (16) 99624-7033 • cauarodolpho@gmail.com

Portfolio • **GitHub** • **LinkedIn**

PROFESSIONAL SUMMARY

Systems Analysis and Development student at UNINTER and entry-level Front-End Developer with hands-on project experience using React, TypeScript, Next.js, and Tailwind CSS. Knowledge of API integration, responsive design, and Node.js fundamentals. Seeking my first technology role to contribute to real products and continue developing within a team.

PERSONAL PROJECTS

AuthFlow — Authentication and user management | *React • TypeScript • Node.js • MongoDB*

Full Stack application with login, JWT, bcrypt, protected routes, demo access, and a CRUD dashboard. **Demo** • **Repository**

FlowView — Custom dashboards | *React • TypeScript • Next.js • Recharts*

Finance and marketing dashboards with local data, imports, exports, and interactive charts. **Demo** • **Repository**

FlowStack — Project management | *React • TypeScript • Next.js • Zod*

Kanban boards, demo roles, delivery reviews, reports, and local JSON backups. **Demo** • **Repository**

TECHNICAL SKILLS

Front-End: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Angular in progress, and Tailwind CSS.

Back-End: Node.js, Express, Prisma ORM, MongoDB, Zod, JWT, and bcrypt.

Tools: Git, GitHub, VS Code, npm, pnpm, Vercel, Figma, Postman, Docker, GSAP, and Framer Motion.

Applied AI: GitHub Copilot, ChatGPT/Codex, Claude, and Gemini.

PROFESSIONAL EXPERIENCE

Merchandise Stocker | **Feb 2025 – May 2026**

- Stocked and organized merchandise and inventory across multiple store departments.
- Supported produce, refrigerated, and frozen-food areas while following routines and priorities.
- Recognized by supervisors for dedication, organization, and reliability.

EDUCATION

Technology in Systems Analysis and Development — UNINTER | In progress | Started: Oct 2026 | Expected graduation: Apr 2029

COURSES AND DEVELOPMENT

Completed at DIO: JavaScript (Feb 2026), React Developer (Jun 2026), Santander 2026 - AI React Front-End (Aug 2026), TypeScript Fullstack Developer (Sep 2026), and GitHub Copilot (Oct 2026).

In progress: Angular Developer Program and English4Tech at DIO; New U-best at UNINTER.

ACTIVITIES AND LANGUAGES

Volunteer work — Interact: helped plan social initiatives, tree planting, and a McDia Feliz fundraising campaign.

Languages: native Portuguese and developing English.
